Product Warranty

Hardware Resources believes in quality, integrity, and reliability. We uphold the highest standards of service and responsibility in the industry.

As such, Hardware Resources warrants all vanities, mirrors, vanity tops, bowls, and their components to be free from any defects in material and workmanship as long as the original consumer/purchaser owns the products and if the original consumer purchased the products from an authorized distributor of Hardware Resources. Hardware Resources cannot guarantee the quality or condition of products from distributors who do not agree to meet our high standards, and therefore, no warranty is provided for products from unauthorized sellers.

If a defect is found, Hardware Resources will send to the original purchaser a new replacement product or component at no charge. If a replacement is no longer available, Hardware Resources will offer a product that is comparable to the original product's purchased price or will refund to the original purchaser the current wholesale value of the defective product or component. This warranty is a warranty of replacement only. Hardware Resources specifically does not warrant removal of the product nor installation of replacement new product.

This warranty does not apply when the item has been tampered with, misused, improperly installed, altered from the original design, or damaged through abuse or accident. Finishes for all vanities and mirrors are multi-layered, therefore, variations may occur, which add to the uniqueness of each item.

Natural stone countertops possess naturally occurring characteristics such as variations in grain and color, as well as mineral streaks and deposits and all are not considered a defect in the product. Engineered material and quartz countertops are manufactured to resemble natural stone patterns, and as a result, variations in grain and color are not considered a defect in the product. Exact shading or grain of the vanity top cannot be guaranteed.

In the unlikely event that a defective vanity, mirror, vanity top, or component is encountered, please contact Customer Service at 800.463.0660. Please be able to provide a brief description and photographs of the defect.

Task Lighting & Power's Vanity Night Light Kit enhances the bath space and improves night-time visibility with combined LED lighting and a Doppler motion sensor switch. When the Doppler sensor detects motion, a radiant LED glow emanates beneath the vanity.

EASY TO INSTALL—No electrician required

The Doppler motion sensor can be installed inside or beneath the cabinet, completely out of sight, and detects motion up to 15 feet without direct line of sight. Installation is easy with a plug-in power supply that can be used with a new or existing outlet. Once installed, select an illumination duration from 1 minute to 4 minutes on the Doppler sensor switch based on customer preference.

TOP IT OFF

The power of selection is yours with the largest range of vanity tops. In keeping with industry trends, we offer 3 types of vanity tops at 3 tiered price points—Quartz, Natural Stone, and Engineered Materials. Most vanity tops are cut with an 8" 3-hole faucet spread, either an oval* or rectangle bowl, and include a 4" tall matching backsplash (except White Stone Resin). Optional sidesplashes are also available (see page 274).

QUARTZ

CALACATTA VIENNA QUARTZ (CQ)

This quintessential quartz pattern showcases the flow of refined veining throughout a white core. Calacatta Vienna Quartz mimics the movement of natural stone while possessing the strength and durability of quartz.

Note: The veining thickness ranges from 4 mm to 63 mm and averages between 30 mm and 50 mm thick.

Material thickness: 18 mm

GREY QUARTZ (GQ)

Classically smooth, warm grey tones are consistent throughout the entire quartz surface. The visual versatility of grey is combined with the durability of quartz to create a vanity top that will pair well with most any vanity base finish.

Material thickness: 18 mm

WHITE QUARTZ (WQ)

Elevate your bathroom with the ethereal allure of White Quartz. The soft white hue and sleek surface create a tranquil ambiance, transforming your daily routines into moments of luxurious indulgence.

Material thickness: 18 mm

*Only available with rectangle bowl cutout option.
Available with single hole faucet option (25" and 31" only).*

*Vanity tops with Oval cutout have limited supply.

NATURAL STONE

**WHITE CARRARA MARBLE (WC)**

White Carrara Marble is a timeless natural stone that creates a neutral, clean space. Dark grey veining undulates throughout the stone as it weaves its way across the surface.

Material thickness: 25 mm

**GREY MARBLE (MG)**

The multitude of natural striations leads your eyes across this gorgeous surface. The grey ranges from deep charcoal to matte white and everything in between.

Material thickness: 18 mm

**BLUE LIMESTONE (LS)**

Blue Limestone exudes personality with the wide array of natural earthy tones that meld together to create a fusion of polished texture. Colors range from soft brown undertones to shale grey flecks.

Material thickness: 25 mm

**BLACK GRANITE (BG)**

Golden flecks bring out the natural elements of this polished black surface. Granite continues as a trending countertop material and is a great option for bathrooms.

Material thickness: 25 mm

ENGINEERED MATERIAL

WHITE STONE RESIN (RE)

This crisp, glossy white engineered material is made from a stone composite and features an integrated rectangular bowl, giving any vanity a sleek, contemporary feel.

Material thickness: 64 mm

Only available with an integrated rectangle bowl.

Tops for Gardner & Tempest have a single-hole faucet configuration.

Does not include a backsplash.
